

# Inventory Track

Easy. Fast. Complete.

Jolly Technologies

## Efficient Inventory

Take the hassle out of inventory management and always stay organized with Inventory Track. Manage supply and inventory levels and receive alerts when supplies levels are running low.

## Powerful Reporting

Know where inventory levels of items are within seconds, utilizing our robust real-time reporting. Keep track of restock, stock rotation, and much more.

## Centralized Management

Whether you're in one location or are around the world Inventory Track offers comprehensive, centralized management for every facility.

## ABOUT US

Jolly Technologies is recognized as a world leader in developing identification and tracking software applications.

Every day prestigious companies across all industries, in more than 120 countries, enjoy the advantages of our innovative, premier solutions.

Jolly is committed to enhancing our customers' productivity with best-in-class business process software solutions that are exceptionally powerful, customizable to your environment, and remarkably easy to use.

## WHY INVENTORY TRACK?

### Quick Setup

Work with existing inventory data or select from one of our pre-configured, customizable databases.

### Fast Tracking

Create custom RFID or barcoded labels for your inventory for quick scanning and boosted productivity.

### Automatic Notification

Whenever inventory stock falls below restock level, receive automatic e-mail notifications.

### Complete Flexibility

You take control with a fully customizable user interface, database and business logic.
